

Prayerscape Workshops 2025

1. Discipleship – The Critical Journey

Churches are coming into agreement – a new focus on discipleship will be essential for the season ahead. This 2-3 hour workshop will help you and your team consider the differing discipleship needs within your community for people in different stages of the faith journey, ranging from new disciples through to mature Jesus followers who are diving in deep. Taking you beyond a one size fits all approach this workshop will stimulate creative thinking and discussion around discipleship priorities and will offer some surprising prophetic insight into new season discipleship.

2. Prayer – The 7 P's

This practical workshop is based around the simple premise that prayer transforms communities! Prayer is an essential part of our personal and corporate worship and mission, and yet may be simpler in theory than it proves to be in practice. The 7 P's workshop details 7 areas of prayer focus with practical strategies to help your team incorporate prayer as a daily practice in personal and work life, transforming what they do and, more importantly, who they are, as daily interaction with the Holy Spirit becomes a practised reality.

3. Freedom – from Fear to Flourishing

This 2-3 hour workshop considers a wholistic discipleship framework which incorporates spiritual freedom as an early priority. Several churches in Perth have recently been engaging with Rob Reimer's Soul Care ministry and courses as a result of a growing awareness of the importance of inner healing and deliverance in discipleship. Let's start a conversation about helping those we disciple break free from spiritual strongholds and step into the abundant life Jesus promised to his followers. This workshop will not be prescriptive or denominational in nature, with Nicki working with different church staff teams to help them examine this discipleship focus in light of the needs and giftings of their people, as well as their theological understanding.

“Get off the Highway!” a day retreat for pastors and church leaders

This retreat prioritises and facilitates the life-giving practices of silence and solitude to wind down, wait on God, experience His love, and listen to His voice. Book this retreat for your team and we promise you will leave feeling renewed and inspired by fresh vision and revelation from God!

Unity Retreats for Geonetworks/Pastor fellowships

These day retreats are designed to build unity and community between church leaders of different denominations, allowing space for leaders to share authentically, and to seek God together. In this space we honour the hard-won unity that emerges from diversity and encourage sharing at a deeper level as a way to move forward together to Kingdom co-operation and power, and the subsequent transformations of our suburbs and the city of Perth.

Restoration Retreats for Chaplains

These day retreats are specifically formulated for school, aged care and hospital chaplains, designed with an awareness of the particular difficulties encountered by Kingdom servants in chaplaincy roles. The format of this retreat prioritises personal time for each person with God, allowing space for restoration and rejuvenation and fresh Holy Spirit in-filling for the ministry road ahead.

Soul Focus individual sessions for leaders

Are you struggling in your relationship with God, finding it hard to pray, burnout, depressed? Finding it hard to teach others about abundant life when you are not experiencing it?

These 1-2 hour prayer sessions are designed to help you work with the Holy Spirit to clear out and refill your soul. The sessions are facilitated by Nicki and an accountability person of your choice. Sessions are safe and confidential, and designed to help you deal with spiritual and emotional issues as God reveals them to you, if, and when you are ready.

Jesus said "The thief comes only to steal, kill and destroy. I came that they may have life and have it abundantly."

John 10:10
